GEN. SHERMAN'S MISSION.

The *Herald's* Washington correspondent gives a little inside history of the late mission of Sherman and Campbell to Mexico. The expedition according to Mexican advices, has proved a positive injury to Juarez and a windfall to Ortega. The two envoys were at odds with one another from the start. Each claimed to rank the other, and each had separate instructions. This led to a stormy discussion between them, in which were personal allusions, by no means complimentary, and culminated in an open breach at Matamoras, when they parted company, returning by seperate routes to New Orleans.

NEW GOLD FIELD IN AUSTRALIA.

A new gold field of great extent has been discovered in the Weddin mountains, about two hundred and eighty miles from Sidney, which the Government officials state will give employment to a large number for three or four years. Sinkings about fifty feet deep, through a hard soil and the holes bottomed, are yielding an average of five grains to the dish. About eight thousand miners are already on the ground. The yield of the gold fields generally show a falling off, in 1866 to 186,000 ounces, against 221,000 in 1865. Several failures occurred in the breadstuffs trade, including M. A. Several rumors are afloat regarding depredations near us; one that they killed forty men, most of the officers, and that they are marching on that place in great strength and with great determination. The road is clear to Fort Kearney, and eight hundred troops have been ordered for service on the plains and mountains, and the first installment is now *en route* by the Pacific Railroad.

FRANCONIA, N. H., Jan. 19.—Samuel Mills, the murderer of Maxwell, has been arrested in Galena, Illinois.

CITY AND SUBURBAN.

Frightful Runaway.

At about five o'clock on Saturday evening a runaway of a most frightful character occurred on Market street, resulting in the slight injury of four persons, and only by the most incredible chances avoiding fatal results. A son of Mr. Jas. McGunnigle, of McKees Rocks, was driving a team belonging to his father, along Market street, starting from the corner of First. In the sleigh with the boy was his sister, aged about fifteen years and his cousin, a little girl of twelve years, named McKee. At the corner of Third and Market streets the traces became disordered in some way and the horses taking fright ran furiously along Market as far as the corner of Fourth street. There the sleigh struck a fire plug and was instantly overturned and completely demolished, the inmates being thrown violently out and the liberated horses dashing away. The driver was thrown into the middle of the street and escaped injury, with the exception of a few slight scratches and bruises. The two girls were thrown upon the sidewalk, Miss McGunnigle striking on her head and her cousin being thrown upon her striking with her side upon Miss McGunnigle's head. Officers Cupples and Dressler who had witnessed the first of the runaway ran to the spot as rapidly as possible and carried the girls into McConnell's store, near which the accident occurred. Meantime, the horses had dashed upon the pavement to the great terror of the foot passengers. Two little children, one aged about seven and the other a little over five years, children of Mr. Jas. McTighe, of Murdoch's Court off the Diamond, were on the pavement, and were both struck and knocked down by the horses' hoofs, and almost at the same moment the horses fell, apparently crushing both the little ones under them. How both children escaped instant death is a miracle, but as soon as the horses had gotten away, they were taken up, with no bones broken. The children were taken to their home, and Dr. Murdoch, of Fourth street, immediately summoned. On examination, he discovered that the oldest child was somewhat injured in the foot, but not so seriously as to necessitate long confinement to the house. The younger child received still slighter injuries, being only a little cut on the forehead, where, apparently, one of the horses hoofs had struck it. Dr. Murdoch then investigated the injuries of the two girls. Miss McGunnigle was found to have received a slight scratch on one of her legs, which was at first supposed to have been broken. Otherwise she was uninjured, except a slight bruise on her head. Her cousin was not seriously hurt, but received some bruises on her body. It seems utterly incredible that the accident could have occurred without causing the death of the three inmates of the sleigh and the two children. The horses were soon checked and the injured parties conveyed to their home.

Fire in the Third Ward—Boy Probably Burned to Death.

A disastrous fire occurred yesterday morning a little before three o'clock, at the corner of Webster and Seventh streets, in the Third ward. The fire originated in a one story brick building occupied by Mr Patrick McKelvy as a feed store. The alarm was promptly given from box No. 35, and the engines were all speedily on the spot. The fire plugs were all frozen, however, and had to be thawed out before the engines could get into service, so that some twenty minutes elapsed before any effective work could be done. The fire spread rapidly and the feed store was quickly destroyed, as well as the select school room in the same building, occupied by Mr. Jeremiah O'Donovan. Mr. O'Donovan's sleeping room was broken open by some of the firemen, and that gentleman rescued from his bed where he lay in happy unconsciousness of the peril that raged about him. He was not allowed time even to save his wearing apparel, so close were the flames upon him when he was rescued. The building was also occupied by Michael O'Day as a residence and a drinking saloon, and his portion of the premises shared the utter destruction of the rest. Before the flames could be checked the whole building was destroyed. Meanwhile the fire had communicated to a frame stable in the rear of the brick house, and fronting on Beech alley. In the stable were eight horses, three of which were rescued. The other five were burned up. Two of the horses lost belonged to Mr. McKelvy, one to Jno. M'Mahon, one to Arthur M'Cain, and one to Mr. Carry, a coal hauler. An orphan boy named James Young, employed as a driver by Mr. McKelvy, was sleeping in the office of the feed store, at the time of the conflagration, and it is feared was burned to death, as nothing was seen of him during the progress of the fire, and no trace or tidings of him has since been obtained. Mr. McKelvy has no doubt that he perished in the flames. The dwelling house of Mr. David Wright, a two story brick, adjoining the one story building on Seventh street burned, was considerably damaged by fire and water. The cabinet establishment of Messrs. Dauler, Close & Co., on Seventh street, was not injured. The entire premises were held by Mr. McKelvy on a lease. He has been unable to form any estimate of his loss, but it is heavy and only slightly insured. The loss of the other parties could not be ascertained. The fire was undoubtedly an incendiary one.

Skating Contest—Championship of Allegheny County.

On Saturday afternoon, according to announcement, a spirited skating contest came off at the Central Skating Park, in the Ninth ward. The contest was for a beautiful gold medal and the championship of Allegheny county, and was participated in by five contestants of excellent qualifications. The day was admirably adapted to the occasion, and a large and deeply interested crowd of spectators were present. The ice could hardly be imagined in a better condition.

Before entering upon the contest, the candidates were required to sign an article of agreement to the effect that if at any time within ten years, the winner of the medal be challenged to compete again for its possession, the condition of accepting the challenge shall be the choice of the Central Park as the scene of the contest. Messrs. Thomas L. Hanesty, Charles S. Critchelow, John Burgess, jr., C. A. Wade and Hamilton Merriman affixed their names. At three o'clock the Referee, Mr. A. J. Lee, and the Judges, Messrs. Wick Macrum, W. J. Jennings and Frank Vangorder, took their position, and the contest commenced. Each competitor skated ten minutes. At the end of the contest, Mr. Burgess was declared the champion, and was conducted to the platform and there presented with the medal by T. J. Spence, Esq., in his usual happy manner. D. P. Corwin, Esq., responded on behalf of the recipient, assuring the crowd that he would hold it against all comers.

The medal is a beautiful one, manufactured by Stevenson & Son, Jewelers, on Market street, at a cost of $50. On one side was the inscription, "Central Park Skating Company. January, 1867," and on the reverse side a beautifully engraved skate and the words, "Champion of Allegheny County." All the other contestants did admirably, and we think that we may say without seeming invidious, that Mr. C. Critchelow was particularly graceful and skillful in all his movements.

Accident.

A painful accident occurred on Saturday afternoon, by which Sarah Mullen, a daughter of James C. Mullen, a resident of the Seventh ward, was nearly burned to death. She had been sent by her mother to kindle a fire in the upper chamber of her house, and for that purpose had procured a shovel full of burning coals. On going up a flight of stairs the handle of the shovel struck a partition, throwing the fire over the child's clothing, which immediately ignited. Running to the kitchen, where her mother was engaged in washing, she threw herself into a tub of water, and succeeded in extinguishing the flames. The floor of the chamber in which she had dropped the burning coals had in the meantime also taken fire, and, before the fact was discovered by Mrs. Mullen, a valuable wardrobe was partially burned, as a rag carpet. Through the exertions of several of the neighbors, no further damage was incurred. Dr. Herron dressed the injuries of the girl, but entertains little hope of her recovery.

A Character Sworn Back.

Mary Reagan lives with her husband on Factory street, in the Fifth ward. Timothy Sullivan lives there too. A few days since Timothy took occasion to say things that were anything but complimentary, concerning Mrs. Reagan. She thereupon made information before Alderman Taylor, charging Timothy with surety of the peace. The accused was arrested and pleaded with the offended lady that he never would have said such things if he had not been drunk. Mrs. R. responded, that she didn't care anything about it herself but she wanted her character back to take to her husband, for he was very angry. So on Saturday Timothy came before Alderman Taylor and swore that he firmly believed Mrs. Regan to be a thoroughly and unquestionably honest and honorable woman. Mrs. R. was thus enabled to take her reputation, in an excellent state of repair back to her husband.

Getting Rich.—The landlords having the good fortune to be located at Perrysville this winter have reaped a rich harvest from sleighing parties. That road appears to be the only one traveled by the festive sports who can indulge in sleighing at present high prices.

Painful Accident in the Gazette Building.

An accident of a very painful character happened in the GAZETTE building, at a late hour on Saturday night, through which a very estimable gentleman will probably lose his life. Mr. David M. Russell, a carpenter, from Westmoreland county, in company with two gentlemen, came into the building for the purpose of inserting an advertisement in the *Leader*, which is published in the rear wing of the premises. They all passed up the stairway of the front building until they got into the composing room of the German *Democrat*, on the fourth story, where a gentleman connected with that paper was at work. He informed them the *Leader* was published in the rear building, and volunteered to show them the way. Opening a door which enters upon the stairway landing, and telling the gentlemen to be careful of the hatchway, which was partly unclosed, he preceded the party. Mr. Russell did not follow him, but in the darkness groped his way to the hatchway, through which he fell to the second floor, a distance of perhaps twenty feet. The hatchway door on the third floor was closed, but in his fall the poor man broke through, shivering the wood into pieces. Dr. H. T. Coffey, of Fifth street, was immediately called, and afforded the man all the relief in his power, and pronounced his injuries of a necessarily fatal character, the spinal column having been dangerously affected. He was conveyed to his boarding house on Water street, where he now lies suffering intensely. He is unmarried, and has no relatives or friends residing in the city. Several months ago he fell from the roof of a house which he was shingling, badly dislocating his ankle, and had just got well, and came to the city on Saturday last. He is a member in good standing of the Masonic order.

An Old Firm in a New House.

The firm of J. Knox & Co., which is known throughout the entire Union as headquarters for seeds and implements of agriculture, has just removed into their new, elegant and commodious building, No. 137 Liberty street, foot of Fifth street. The change is decidedly a good one, as the firm have now greatly enlarged facilities for doing business, and have ample storage room for much heavier stocks of implements than could be kept at the Fifth street house. The proprietor, who is the largest grower of small fruits in this country, intends that the high reputation hitherto awarded his house shall be sustained in the future, and announces that he has in store and for sale seeds of an endless variety, many of which he imports himself directly from Europe, chosing the finest offered in the foreign markets. Florists, agriculturists, and all others are invited to call in and examine the stock. The spacious floor in the second story has been set apart for a wholesale room, where dealers who buy to sell again will be accommodated. We cheerfully commend this house to the patronage of the public at large, and congratulate those interested in agriculture that our city contains the best representative seed and implement store to be found in the Union.

Philip Phillips.

The Ladies' Educational Association of the Pittsburgh Female College, announce a grand musical treat to-morrow evening, under their auspices, at the College hall. The presence of Philip Phillips, the famous vocalist of New York, will give the entertainment a higher tone than the ordinary concert, and we trust our readers will embrace the opportunity of attending. Every person who has heard Mr. Phillips in his vocal executions, have awarded him the highest enconiums of praise, and he deservedly occupies a high position among the celebrated singers of the age. The young ladies are determined that their part of the entertainment will be of the highest intellectual order. The cards of admission, obtainable at the music stores or at the college, have been placed at one dollar each.

An Array of Students.

During the past ten years, upwards of fifteen thousand students, representing every State in the Union, have attended the Iron City College, Pittsburgh, Pa., a larger number than ever before have attended any one institution in America in the same time. The immense popularity of this College is attributed to the superiority of its system of instruction, which combines both theory and practice as carried out in actual business, so that when a young man graduates here, he is prepared at once to enter upon the active duties of life. A Diploma from this College is a sure passport to success, as no higher recommendation could be desired or is required among business men.

Election of Officers.

At a late meeting of the Walton Hose Company of Birmingham, the following officers were elected for the ensuing year: A. J. Rapp, President; J. N. Jarrett, Vice President; J. R. Jaques, Secretary; George Distler, Assistant Secretary; Joseph Walton, Treasurer; George Roberts, Captain. Hose Directors—Thomas Hoffman, First; James Comary, Second; Henry Henry, Third; Daniel Sheltz, Fourth; John McAffee, Fifth. Hose Engineers—Hugh McSwigan, First; Frank Lauer, Second; George Shulz, Third; George Morley, Fourth; Caleb Sottons, Fifth; A. Bushman, Sixth. Plug Guards—Louis Lipps, Benjamin Thomas. Axmen—John Carl, James Carlston, John Bonshire, Jos. Carlton.

Runaway on Fifth Street.—On Saturday afternoon a horse attached to a sleigh, in which were four men, while coming down Fifth street from Wylie, started on a keen run down the hill. When opposite the GAZETTE office one of the men in the sleigh was thrown violently out, though, fortunately, without sustaining any injury. The horse turned up Smithfield street, and when near the corner of Sixth street the sleigh upset, spilling out the remaining three occupants. No bones were broken, and a few disappointed feelings and a few torn clothes constituted the amount of damage done. The horse was soon checked, and the party proceeded all right.

The Old Folks.—Father Kemp announces one more week, and positively the last for the season, of his great concert at Masonic Hall. Splendid audiences have greeted the "Olk Folks" every night during the past week, notwithstanding the severe cold and stormy weather. In addition to their continental psalm-singing, they intersperse their performances with a great variety of well-chosen songs, duets and quartets, giving an exhibition of that high state of musical culture to which they have attained, thus affording our concert-goers one of the most pleasing, as well as novel musical exhibitions we have had in this city for many a day. Seats can be secured at the Hall during the day.

Fatal Accident.—On Saturday night, at nine o'clock, George Steele, a locksmith, residing on Bingham street, in Birmingham, met his death very suddenly. He was descending the stairs in his house, when he slipped and fell to the bottom, breaking his neck, and of course killing him instantly. He was found soon afterwards by his wife. The deceased was about fifty-six years of age, and leaves a wife and one daughter, a married lady. Coroner Clawson was summoned, and held an inquest on the remains yesterday. A verdict of accidental death was rendered.

Wanted a Clerk.—A manufacturer advertised one time for a clerk last week and one hundred and seventy-three applications have thus far been received. This proves too things very clearly; First, the benefits to be derived from advertising in the GAZETTE, as it is widely read and reaches all classes; and secondly it shows how many young men are out of employment, waiting for "something to turn up."

Attention is Directed to the advertisement in another column, Mr. W. H. Williams offering his elegant residence, at the mouth of Centre Avenue, on Fulton street, for sale. This is one of the best and most comfortable mansions in the city and is beautifully located, within but few minutes walk of the post office. It will be sold at a very reasonable price.

Good Appointment.—We are pleased to learn that Governor Geary has appointed H. D. Lyon, Esq., of Duquesne borough, Sealer of Weights and Measures in Allegheny county. The appointment is most worthily bestowed. Mr. L. is an excellent citizen, and lost a son during the late war.

How it is Done.—Upon one of our principal streets there are three retail grocery stores adjoining each other. All are well kept. One is continually crowded with purchasers, the others are rarely favored with patrons. The first advertises liberally in the city papers, the others do not.

Coasting.—The boys are having a happy time this season in coasting with their tiny sleds upon the less frequented streets. We might growl at the practice but remember that we were once a boy ourself and regarded those who interfered with our sport as "ruffians of the deepest dye."

More Bounty.—W. J. and Hall Patterson, one of the most reliable and trustworthy claim agencies in this community, daily receive the additional bounty for clients who have entrusted them with the collection. Their office is at No. 71 Grant street, second floor.

Dissolution.—The well known oil firm of Wormser, Myers & Co., has been dissolved by mutual consent, Dr. Arnold Herz retiring. Under the same style the firm will continue in the business of refining petroleum at the Petrolite oil works, Ninth ward.

Not Satisfied.—The politicians are not satisfied with Governor Geary's bestowal of the office of flour inspector upon a citizen of another county. Out of all the appointments, Allegheny county, we think, got a notary public as its reward.

John Godfrey Saxe.—At the Academy of Music, to-morrow (Tuesday) evening, John G. Saxe will make his first appearance in our city for some time. On this occasion Mr. Saxe will deliver his unpublished poem of "Love," which has been very highly spoken of by the critics of the New York press. Seats can be secured on Tuesday morning at ten o'clock. We look for a large audience to welcome Mr. Saxe back again to our city.

Our Thanks.—Dr. H. F. Coffey, Fifth street, has our thanks for promptly obeying the summons sent him to attend the injured man who fell through the hatchway of the GAZETTE building at an unseasonable hour on Saturday night.

Convalescent.—Our esteemed friend S. P. Logan, of F. H. Eaton's establishment, who has been dangerously ill with the typhoid fever for a long time past, is convalescent and will soon be able to resume his duties.

Monster Humbug.—The *Leader* yesterday calls the Pennsylvania Railroad Company a "monster humbug monopoly." What is the matter? Has the "monopoly" gone back on the *Leader* in the way of free passes?

Humanity.—With commendable humanity the managers of the Birmingham Passenger Railway, use four horses instead of two in drawing their cars over the heavy parts of the road, during this inclement weather.

Not Kept Clear.—The foot-walks of the Suspension bridge are daily swept but in spite of this precaution, snow and ice has accumulated to such an extent as to render walking upon them very disagreeable.

Matrimony.—The young folks of the city appear suddenly to have realized the happiness of the married state, and are rushing into the holy bonds with alarming rapidity.

Laying in Ice.—The ice dealers have commenced to lay in their stock of ice for next summer's use. It is of very fair quality, taken, of course, from the Allegheny river.

Country Sleds.—Allegheny Diamond was crowded with country sleds on Saturday, the farmers taking advantage of the same to bring in heavy loads of produce.

Better.—Mr. Russell, the gentleman who fell through the GAZETTE hatchway on Saturday night, was a little better last night, and hopes are entertained for his recovery.

Improving.—The retail business of the city is rapidly improving, and merchants are beginning to feel happy as the bug-bear panic gives no signs of a near approach.

Church Loafing.—We will stop calling attention to that class of loafers who lounge about church doors every Sunday, if they do not abandon the contemptible habit.

New Oil Wells.—A large flowing oil well was struck on Friday last near the headquarters of standing Stone Creek, in West Virginia, at a depth of 475 feet.

Quiet Sundays.—No where in the Union has the Sabbath been so universally and sacredly observed as in Pittsburgh, since the incoming of Mayor McCarthy to office.

Slow Time.—All of the trains on the roads centering here have been greatly delayed the past few days by the difficulty encountered with the snow.

Probably will Adopt.—It is probable that the Allegheny Councils will adopt Cushman's system of Fire and Police Telegraph, for the use of that city.

Typhoid Fever is raging almost in an epidemic form in Pittsburgh and Allegheny. It has been fatal in many cases brought to our notice.

Flood Anticipated.—The inhabitants o the river fronting portions of the two cities anticipate a great freshet when the spring thaw sets in. Quite probable.

Large Receipts.—It is unofficially announced that the net earnings of the recent Catholic Orphans' Fair will approximate ten thousand dollars.

The Gymnasium is in fair working order and appeals to the community for substantial aid and encouragement. Everybody should join.

Large Business.—The skating parks transacted a large business on Saturday, judging from the great number of visitors in attendance.

Flourishing.—The Allegheny Public Library is in a flourishing condition, and daily finds new subscribers. It is admirably managed.

A Shame.—It is a shame that alarms are not given now, for any fires outside of city limits—in Allegheny or adjoining boroughs.

Sneak Thieves.—That contemptible class of thieves known as "sneaks" are still operating in some of the outer wards.

Spicy.—The *Leader's* theatrical column is very ably edited and reflects much credit upon the talented critic who gets it up.

"To Lets."—A few of those old-fashioned announcements are being posted up on houses in some quarters of the city.

Will be Opened.—The new Lawrence Railroad will be formally opened with a select excursion party to-morrow.

Snow.—Yesterday at intervals, we had a copious fall of snow. The sleighing in the country parts is "tip top."

Well Attended.—The public and private schools of the city are largely attended this winter.

The Cholera.—The medical fraternity incline to the opinion that the cholera will pay us its postponed visit next spring.

Not up to Time.—A chap was vainly searching for the canal on Penn street on Saturday.

To be Tried.—The Heddrich homicide case will be taken up in the Criminal Court to-day.

Paine & Co's Argentine.—For instantly plating all articles of copper, brass or German silver, with pure silver, where worn off, and for cleansing and polishing silver or silver-plated ware. Warranted to contain no quicksilver or acid, or any injurious article. For sale by J. Sample, Allegheny, and all druggists. de18:tf

MONDAY, JANUARY 21, 1867.

MR. WARD, of Kentucky, undertook to demonstrate to Congress, on Saturday, that the punishment of Treason as a crime, was persecution. We do not hear that he made any converts.

THE President, through his Washington organ, threatens Congress with military violence in case the impeachment scheme shall be persisted in. That would seem to be a tolerably fair way of making sure the catastrophe the President would avoid.

THE *Commercial* has an ethical system about as monstrous as is often made. For a man to *seek* an end by bribery and corruption it holds to be deserving of unstinted condemnation; but when the endeavor has blossomed into *actual consummation*, it maintains he merits acquiescence, if not commendation. This is ordinarily the tribute Venality pays to Success.

MR. SPAULDING, of the Cleveland District, has rested under an imputation of conservatism. Yet, on Saturday, he offered an amendment to Mr. Stevens' Reconstruction bill, which was accepted by that gentleman, placing the States unrepresented in Congress under martial law, and suspending the writ of habeas corpus therein so long as they remain in that condition.

THE Erie *Dispatch* recently made an attack on Governor GEARY which we thought carried its own antidote. The Harrisburg *Telegraph* was fired by this attack, and, after denouncing it, calls upon the Republican press of the State to follows its example. With all deference we submit that this vehement exhortation comes with bad grace from our Harrisburg contemporary. How long is it since it ceased defaming Governor CURTIN?

NONAGE is sometimes plead to escape liability for obligations contracted during the immaturity of youth. In its efforts to estop everybody who seeks to hold it to ordinary account for its conduct, the *Commercial* goes a step beyond this. It pleads, "OUR OWN BRAINS *are the measure of our responsibility*." Then, good neighbor, you need not be afraid of damnation, either in this world or the next.

THE REV. GEORGE LANDON, State Senator from the Bradford district, is named by the Columbia *Republican* as the right man to succeed Mr. BUCKALEW in the United States Senate two years hence. This is part of the programme under which General CAMERON was elected this year.

Mr. LANDON has no graces of personal appearance or charm of manners to recommend him; but he has intellectual powers and culture of an unusual order. In the prime of manhood, with enlarged views and advanced opinions upon all public questions, he belongs to a class from which it is eminently proper the Republicans of Pennsylvania should select its Senators.

A writer in the Philadelphia *Press* suggests the name of Mr. G. W. SCHOFIELD, member of Congress for the Erie district, in the same connection. Less an orator than Mr. LANDON, he surpasses him in exact training on many lines of thought essential to successful statesmanship. The Republicans of the west will do well to bear the suggestion of his name in remembrance.

A VERY IMPORTANT MOVEMENT.

We are advised that a number of capitalists from Philadelphia are in St. Louis negotiating for the purchase of the old Pacific Railroad of Missouri, and for its incorporation with the Union Pacific Railway, Eastern Division, and also to obtain the control of the Ohio and Mississippi road, so as to draw the trade of the vast regions traversed by these roads through Pennsylvania to Philadelphia.

This is a grand and perfectly fair and legitimate enterprise; for Nature indicates this as the shortest, the cheapest and the best route for the trade between the oceans. This was clearly demonstrated by our correspondent on the excursion to Fort Riley in November last, in his letter in which he spoke of the eastern connections of the Union Pacific Railroad via the valley of the Kansas. We are glad to see the capitalists of Pennsylvania putting forth their strength in that quarter; for we believe that they will be successful in their great enterprise, and not only enhance their own fortunes, but confer great and lasting benefits upon our State and upon the great interior region in which we all have a deep interest.

The Pacific Railroad of Missouri runs from St. Louis to Kansas City, a distance of 285 miles. It was commenced some fifteen years ago, and prosecuted slowly, under State auspices, the last division having only been finished last year. This company, like most others, struggled long under pecuniary difficulties; but they succeeded at last in completing their work, and in doing it well. But the grade is unique, being 5 feet 6 inches, while that of the Union Pacific, from Kansas City westward is, like most other roads of the country, 4 feet 8½ inches. This difference of guage imposes the necessity of a transfer of all freight going west of Kansas City. To get over this difficulty, it is proposed to lay a third rail, so as to have two guages on the same road. It will be necessary to do this, rather than compress the guage to 4 feet 8½ inches; because to do so would be to render useless the large rolling stock of the present road. But by having two guages the old wide guage rolling stock can be used until worn out, while all the new stock can be of the narrow guage.

By this change of gauge this old Missouri Pacific road will at once become a part of the great line of communication between the Atlantic and the Pacific, instead of being, as it now is, a disconnected, broken road, beginning and ending within the limits of a single State; and nothing less than this will enable St. Louis to compete successfully with her formidable commercial rival at the head of Lake Michigan. Nor can Pennsylvania by any other method, so successfully turn the Trans-Mississippi trade through her own boders, and to her commercial capital.

But there is one thing more needed to secure this great object, and that is a bridge, either over or under the Mississippi, at St. Louis. Our voice would be given—if we had a vote to give—in favor of a bridge over the river, and so high as to require no draw, and with spans so long as to cause no impediment to navigation. Such a bridge would, to be sure, be very expensive; but a million or two of dollars would be of little consequence in such a work as this. Rather than an obstructing or defective structure should be erected, the city of St. Louis had better make a clear donation of two millions to the work.

But we have said more than we intended at first, and shall close by again expressing our gratification at this evidence of enterprise on the part of the capitalists of our own State and our chief city. How much more noble are such movements than some efforts that have been made to crush kindred enterprises within our own borders. Let us hope that a better era is dawning.

THE CRIMINAL INSANE.

By the laws of this Commonwealth, when a person charged with crime, or convicted thereof, is duly proved to be insane, no matter whether the act was committed before or after the development of mental disease, he or she is sent by order of the Judges of the Court having cognizance of the case, to one or other of the Lunatic Hospitals, for whose maintenance the Legislature regularly makes appropriations. Unless the mania with which they are afflicted is so acute as necessarily to subject them to solitary confinement, they are placed in wards with patients of reputable moral character.

By the superintendents and managers of asylums this is felt to be a serious evil, and hence from the State Lunatic Hospital at Harrisburg and the Western Pennsylvania Hospital at Dixmont, the Legislature, at its current session, is strongly urged to provide a new institution for this class of patients. If we are not mistaken, from both Hospitals this suggestion is accompanied by another to the effect that the new institution, when erected, might be so planned as to accommodate all the incurables who now or may hereafter occupy quarters in the existing houses.

That form of insanity which leads to the commission of crimes must be regarded as specially dangerous. No person of ordinary susceptibilities would willingly have a friend, much less a partner of his blood, exposed to contact with such people, even when afflicted with milder forms of mental derangement. But when indulgence in vicious or criminal courses leads to the overthrow of the intellect this repugnance is greatly enhanced. Contact with this latter class cannot fail, in addition to its bad effects on the mental condition to be most pernicious in its moral aspects. Yet, such association is absolutely unavoidable in existing State Hospitals, so long as the laws regulating admission shall remain as they are.

There is, furthermore, much force in the suggestion that patients whose cases are hopeless should be separated from those whose maladies are fairly estimated to be curable. These hopeless cases, many of them epileptic, are a serious hindrance to the cure of others of a milder type or of recent development.

Nor can it be fairly urged that a new Hospital for the criminal and incurably insane will subject the people of the Commonwealth to a large outlay of money that might otherwise be avoided. The house at Harrisburg is so full that if the Superintendent and managers had discretion in the premises the number would be reduced rather than enlarged. The accommodations are so completely overtaxed that it is impossible to observe in many particulars deemed essential the prescribed arrangements. At Dixmont the house is even more crowded. If the new wing was finished and ready for use the present number of inmates would require all the rooms, if the proper isolation for sleeping purposes should be observed. Before the remaining wing can possibly be erected fresh applicants will demand all the space within its walls. The fact is, the present Hospitals are not sufficient for the advantageous custody and treatment of half the insane within the borders of the Commonwealth.

The care of these unfortunates largely devolves on the public, and it is a responsibility which cannot be shaken off. In earlier and ruder ages, when insanity was accounted either a crime or a manifest sign of Divine wrath, lunatics were naturally left to wander in wildernesses, amid rocks and wild beasts, but juster notions now prevail, and the mute appeal of the unfortunates cannot be resisted. If the incurables of all shades should be removed to a new house, properly contrived so as to suitably hold the criminals as well, but with the two classes separated, room would be made in the existing establishments for larger numbers of fresh cases. The treatment could be specially adapted to their requirements, and the proportion of recoveries would doubtless be considerably augmented.

From whatever stand-point, therefore, the suggestion for a new institution is viewed, it must commend itself to the acceptance of thoughtful men. We trust the present Legislature will give it a full and dispassionate investigation, and then act in that bread spirit of philanthropy which is the crowning glory of modern civilization.

THE COMMON APPREHENSION.

It cannot be disguised that a deep feeling of unrest and uncertainty pervades all ranks of business men throughout the United States. A vague and uncomfortable apprehension exists that a financial revulsion of considerable, if not of extraordinary violence, is certainly approaching, and may burst out at any moment. It is the common experience of all communities largely concerned in commercial and manufacturing pursuits, that a period of inflation, brought about either by an inordinate extension of direct mercantile credits, or by a disproportionate issue of paper money, which is an indirect form of extending mercantile liabilities, is surely followed, at less or greater distance, by a time of contraction and failure.

During the last three years of the war all descriptions of business were prosperous beyond precedent. The diversion of hundreds of thousands of men into military, and naval employments; the instantaneous and prodigious demand for certain products of regular industry; the vast requirement of arms, ammunition and other supplies purely warlike; the wonderful activity engendered and transfused by the momentous events transpiring; the enlargement of national credits, and the issue of paper currency, plentiful as flakes in a great fall of snow; all contributed to an accelerated movement in which former poverty disappeared and multitudinous and amazing fortunes were realized. No matter what a man made or bought, or scarcely at what cost, he was sure to vend it at a handsome advance. This prosperity was not altogether fictitous. Much of it was real. Men who had been embarrassed, and found means of payment, knew they had bettered their condition. They who from nothing had become really opulent, knew they were not under a delusion. It was not, however, all substantial and abiding. The prevailing values were not intrinsic, but relative to the currency. A thousand dollars did not mean a thousand ounces of siver. Precisely what it did mean was a point difficult to determine. The inflation increased so long as the government was enlarging the volume of its bonds and notes and unsettled and unpaid balances. When the war ceased, and the government began that retrenchment of expenditures which was to conduct back to the peace basis; when the million of men in the army and navy, and in the adjuncts of those departments, were dismissed; when the amount of greenbacks began to grow smaller; when the taxation made inevitable by the rebellion began to press with its full weight; then began the pinch that has been growing tighter ever since.

In getting back to specie payments losses are inevitable, which none are ready to shoulder. Each man is anxious to shove a portion or the whole of his load on to somebody else. This is one manifestation of the instinct of self-protection, and as all share in it recrimination is absurd.

But, it is well to consider whether the losses can be so great as some imagine. Undoubtedly goods and wares, houses and lands, bought at high rates, will shrink in nominal values, and have to be sold at an apparent loss. Still, the American people, at least those of the loyal States, are less in debt, and absolutely richer, than ever before. They can stand a strain, without serious inconvenience, which, in past years, would have sent wave after wave of financial panic over the land. This has been demonstrated in several prominent instances since LEE's surrender. Business men, as a body, are conscious of their strength, and are not dismayed. They look the future in the face, not liking all the portents, to be sure, but confident that no such disasters as those of 1857 and 1837 are possible in the existing condition of affairs.

DR. MEIGS of Philadelphia, in an address to the friends of the Pennsylvania Hospital furnishes the following interesting statistics of the growth of the Quaker City: "In 1683, 800 people lived in our city; in 1752 there were 14,000 in 2,000 houses. In this year, 1867, 750,000 souls are living in above 80,000 houses. From 1800 to 1820 the population doubled; from 1820 to 1840 again doubled; from 1840 to 1860 trebled. In 33 years, by the year 1900, it may undoubtedly be 2,500,000, and perhaps 3,000,000. New York, with 100,000 houses, has beds for 5,000 poor; Philadelphia, with 80,000 houses, has only 45. It is a shame to her standard of religious morals and charity.

THE Central Pacific Railroad Company, of California, now run four passenger trains daily for a distance of twenty-three miles within the snowbelt of the mountains, that is, from Atla to Cisco. The Sacramento *Union* says:

"The section of railroad within the snowbelt is a wonderful monument of energy and engineering skill, and the region through which it passes is a succession of the grandest scenes the Sierra can afford. A stranger, coming from the eastern slope and finding a locomotive puffing amid the snows in the shadow of the Black Butte and Rattlesnake Peak, six thousand feet above the sea, cannot fail to be startled by such an apparition, and his wonder will not diminish as he descends and looks at the precipitous mountains and stupendous gorges over which the way has been smoothed for the track of the iron horse. There are but two tunnels on this section—one through Grizzly Hill, 600 feet long; and the other through the ridge that divides the waters of the American from those of the Yuba, at Emigrant Gap, only 350 feet in length. The line has been so skillfully run that the ascent is accomplished by cuts, embankments, and blasting a road bed in the solid rock of the mountain side, where an experienced hunter would be troubled to climb. The deepest cut is found at Prospect Hill, ten miles above Atla, and measures 128 feet. The embankments are many and huge, and the settling of these during this, the first season of their use, is the point that requires of the superintendent more constant attention than the obstruction of the snow."

Paying the National Debt.

The London *Spectator*, in alluding to the prospect of our paying our national debt ere long, remarks:

"It will be the greatest deed democracy has ever done, the one which will come most clearly home to property holders, which will most rapidly dissipate the idea that democracy is distinguished by "an ignorant impatience of taxation," or by an indisposition to pay up honorable claims. No despotism will be able to show such a financial account, no constitutional monarchy a better one, and successful finance tells heavily with cultivated mankind. The tide of immigration will set in with double rapidity, and the last remaining deterrent to British North America will have been removed. Meanwhile, whether the dream is fulfilled or not, America, so long as she raises this surplus, possesses a force of which it is difficult to estimate the extent, can, for example, spend without a loan as much as the whole outlay of Great Britain upon her army and navy, can waste every year without increasing her taxes as much as the loan with which Napoleon paid for his Italian campaign.

A NEFARIOUS BUSINESS.—It is the richly freighted ship that is tracked by the robbers of the sea; and, on the same principle, it is the popular specific that the land buccaneers, called counterfeiters, select for their shining mark.

HOSTETTER'S STOMACH BITTERS

Stand pre-eminent among the medicinal preparations in this country. The demand for them is something wonderful, unparalleled; hence the counterfeiters know full well that if they can impose their fiery fluids upon the people as that famous tonic, they can make fortunes by the fraud. They are now at work. Detectives are on the trail of some of them and others have been already brought to book. Let the public second the proprietors in their efforts to baffle the reckless scoundrels who seek at once to poison the community and swindle the firm that has produced the finest Vegetable Bitters ever manufactured. Thinking to dodge the law, the counterfeiters are affixing to their nostrums names resembling in orthography and sound that of HOSTETTER, such as "Hochstetter," "Hoofstetter," and the like. Will the public be kind enough to look to this, and to see also that the label is all right, with its vignette of St. George and the dragon, and its tiny note of hand, signed "HOSTETTER & SMITH." The proprietors will do their part to protect the million from imposition, and they ask the million to be on the alert against the plotters against their health. HOSTETTER & SMITH.

Russell, Erie; 20th, Michael C. Trout, Mercer; 21st, George Rhey, Westmoreland; 22d, John Murdoch, Jr., Allegheny; 23d, William Bissell; 24th, Joshua Wright, Washington.

Additional Members of the Executive Committee—William Colder, Dauphin; Jacob R. Eby, do; Benj. G. Peters, do; John H. Ziegler, do; John Way, Jr., Allegheny; Frederick Watts, James Gowan, David Taggart, Jacob S. Haldeman, Thomas P. Knox, ex-Presidents.

Corresponding Secretary.—James Young, Dauphin.

Chemist and Geologist.—S. S. Haldeman, Lancaster.

Librarian.—Henry Gilbert, Dauphin.

The society resolved to hold its exhibition on September 24th, and the three succeeding days, and appointed a committee to invite propositions for a locality. It is also resolved to hold a state trial of agricultural implements during the coming season, if the Legislature made an appropriation for the purpose. From the treasurer's report we gather that the receipts of the society, from all sources, were over $13,000, and that a loss took place in the operations of the year, owing to the unusually inclement storm at Easton, in September last.

A Wife Has Her Husband Arrested for Murder.

From the Philadelphia *Bulletin* we take the following: "Last night, between nine and ten o'clock, a woman, who gave her name as Deese, went to the Sixteenth District Police Station and told Lieut. Tolbert that she wanted her husband arrested on a charge of murder. She is a German woman, and could scarcely speak a word of English, but had an interpreter with her. She was told to get a warrant, which she did. She states that her husband told her that he shot a woman on the Moorestown road, about three miles from Camden, N. J., on the night of the Presidential election, in 1864, and that he had used a single barrel pistol. The accused, Jacob Deese was then arrested at the house of Mr. Hayes, on Market street, above Thirty-second, where he was living. He was taken before Alderman Allen and was committed for a further hearing.

Deese is a German and came to this country but a short time before he is accused of having committed the murder. When questioned in regard to the affair, he said that on the night in question he had been on a visit to his brother-in-law, who lives on the Moorestown road, and was returning to his home in Camden, and that a man shot at him; but he denies emphatically that he did any shooting.

Mrs. Deese has been separated from her husband for some time, and has been living with her brother, on Market street, near Nineteenth.

An officer has been sent to Camden to make an investigation of the affair and ascertain the true facts of the case.

Fifteen Hours Going from Harrisburg to Philadelphia.

The Philadelphia *Telegraph* says that when the train that left Harrisburg at five o'clock on Tuesday evening, was a short distance east of Parkesburg, at about half-past eight o'clock, the axle of the car in which the National Guards were riding snapped, and down came the whole concern. Three cars were thrown from the track, the end of one was torn out, and the platforms of the others were smashed after the usual manner. But, fortunately, no one was hurt.

It was one o'clock next morning before the mishap was sufficiently repaired to permit the train to proceed. But on arriving at Downington the forward car was again thrown from the track, and another vexatious delay ensued, so that it was not until eight o'clock on Wednesday that they reached their destination, thus making the moderate time of one hundred and ten miles in fifteen hours. After two nights without sleep, and twenty hours without food, they were ready to eat a hearty breakfast and enjoy a few hour's repose.

Shooting Affray.

A shooting affray took place at Milesburg, Centre county, on Monday evening, January 7th. It seems that William Cooke, a young merchant of that place, was spending the evening with some female friends, when six of his neighbors, with faces blackened and otherwise disguised, entered the house, and seized him, with the intention, it is said, of ducking him in the canal. In his attempt to free himself he shot three of the men more or less severely. One, who was shot in the head and neck, it was thought for a time would not recover. It will certainly be a sad thing if death should ensue, and at all events will serve as an intimation of what can be expected by men who undertake the moral reformation of their communities, and in furtherance of their object, resort to illegal and forcible means. A warrant was issued, and the rioters arrested and held for their appearance at court.

Another Probable Abduction by the Gipsies.

The Harrisburg *Telegraph* has received information of the suspicious disappearance of a child. It says: We have received a note from Miss Julia Ann Zone, of Lebanon, Pa., stating that her daughter, Mary Ann, aged twelve years, left home in April last and has not since been heard from. The mother fears she was captured by Gipsies, and thinks she may have been one of the girls recently before the Mayor of Pittsburgh or Allegheny. Mary Ann has a full face, ruddy complexion, dark hair and eyes, stammers slightly, and has a mark between her eyes, received from falling into a fit. Mrs. Zone is in great distress on account of the loss of her daughter, and any information concerning her whereabouts will be most thankfully received.

Abominable Outrage.

The Harrisburg *Telegraph* says: "Night before last, or rather in the evening, as Miss Ada Shaffer, who resides in the country, in the direction of the Poor House, was proceeding homeward from this city, she was met, not far from the skating pond, by a colored man, who made proposals to her, which were indignantly repelled. The negro then threatened to blow her brains out unless she submitted to him. Ada, being a stout, buxom lass, showed fight, and resisted the villian, until by cries she put him to flight. A warrant was issued yesterday afternoon, and placed in the hands of officer Cline, who succeeded in arresting the rascal, whose name is Charles Stevenson. Mayor Edwards committed him in default of one thousand five hundred dollars for court. We have no doubt he will receive the punishment due him.

The Other Side of Salt Question.

The Philadelphia *Ledger* has the following concerning the matter of sprinkling salt upon the railway tracks—a project extensively advocated:

As a matter bearing upon the question of salting the railway tracks, we may refer to the testimony of a conductor on one of the roads in this city. He says that, to protect his feet from cold when the tracks are salted, he is obliged to wear boots that are not only double soled, but that have two thicknesses of upper leather, and over these a pair of extra thick fur-lined mocassins, and even then he suffers from extreme cold. He says, further, that no one can stand any length of time on the platform of a car, when salt is on the road, without being sensible of the intense cold that comes up from the bottom of the car.

Death of the First Mail Carrier.—The Bedford *Inquirer* has the following: "Jacob Graft died in Somerset, on the first day of December, 1866, at the advanced age of nearly ninety-nine years. The deceased had been a resident of Somerset county for upwards of sixty years. He was the first man that carried a mail from Philadelphia to Pittsburgh by this route, carrying it on horseback from point to point, and consuming about two weeks in making a trip. He died as he lived, a Christian, and has gone to the spirit land to come forth again to the resurrection of life eternal."

Unexpected Gymnastics.—On Saturday, December 29th, Mr. Charles Wilkinson, of Blairsville, while out hunting rabbits on the top of Astraw's hill, near that place, lost his footing, and was precipitated over the hill, falling a distance of forty feet before striking a lower range of hills, from which he bounded from point to point, until he reached the tow-path, a distance of about one hundred feet from the place where he first missed his footing. Mr. W. escaped without sustaining any injuries worthy of mention.

Found Dead.—On Monday afternoon last, Mr. John Brunner, residing in Earl township, Berks county, left his house to pay a visit to his neighbor, Mr. Henry Leh, but when about a quarter of a mile from his residence, he fell dead in the street. He was found by his own children, who returned from school a few hours after the occurrence. Apoplexy was the cause of his death.

Safe Robbed.—The safe of the Lebanon Valley Railroad, at the Wernersville depot, Lebanon county, on the nigh of January 7, was carried from the building by burglars, and the door blown off. The door was found about thirty yards from the safe. The amount stolen was sixty dollars in postage stamps.

Accident.—A little son of Benj. Williams of Huntingdon borough, Huntingdon county, had his arm broken on January 2d, by being "shoved off" a sled, on which he and other boys were riding.

Changed.—The Meadville *Daily Republican* is now issued as evening instead of a morning paper, the expenses being much less; the publisher thinks thirty-two per cent.

Great Centres.

MESSRS. EDITORS: Appropos of an article in Saturday morning's issue you may, if you choose, publish this:

The article alluded to is entitled, "What is London?" In the concluding sentences it is anticipated that we may have great "centres." Why not? It has been supposed by many that great cities must be on ship waters. Was Babylon? Was Thebes? Is Damascus? now the oldest city in the world. This latter has been a famous city for centuries. Now, some one may be ready to say that those old cities and their times are so different from ours that we can learn nothing from them. To such let me say "think twice." Do not stand in your own way because some would have you do it, as they continually deprecate all old things without knowing whether they are valuable or not.

If it is said that the modes of business are now so different from those of the days of Babylon and Thebes, this may be admitted. But the ends and results are the same. It may be safely affirmed that waters to float the largest ships is not a *sine qua non* for a great city. If so, then this problem stands out for solution, How came Babylon to be a great city? Or, perhaps, go still further, and deny that Babylon was a great city—because it couldn't be—because it had no harbor for great ships! An objector to such views will no doubt suggest a great many things about caravans, multitudes of people wielded by the hand of despotic power, &c., &c. But, after all, let them consider the matter a little more fully than it could be set forth in a newspaper article, and they may discover in the light of history and reason that there is no better location for a great city than some spots, say in Western Pennsylvania. By the way, the location of Pittsburgh is in many respects very similar to that of Damascus, "The Eye of the East," "The Gem of the East," "The Queen;" only in some respects far better, and not so far different in *latitude* as some might think. Besides, our climate will ameliorate from year to year, as population and cultivation increases.

The location of Pittsburgh in the centre of as fine a region as the sun shines on, and this traversed by noble rivers, with every natural facility for the construction of highways of trade and travel, is unsurpassed. It needs but consideration of the facts, a whole-souled energy, an inviting of enterprising settlers, and a liberal opportunity afforded them to settle, to insure that it shall be one of the greatest cities. If this rather abrupt article serves to arouse any attention to the subject of it, the space it occupies may not be deemed misused.

Governor Geary's Appointments.

Among the appointments made by Governer Geary are the following:

Recorder of Deeds in Lancaster county to fill a vacancy occasioned by death, Martin D. Hess.

Trustee of State Insane Hospital, vice A. J. Jones, deceased, Henry Gilbert of Dauphin county.

Flour Inspector of Western Pennsylvania, Capt. Wm. B. Coulter, of Westmoreland—a brave soldier who gave one arm to his country.

Notaries Public for Allegheny county, Isaac N. Coursin, M. Nelson and Dr. Samuel Smith; for Lycoming county, Robert Hawley of Williamsport.

Sealer of Weights and Measures in Chester county, Morris Maris; in Delaware county, Philip B. Green.

Supreme Court.

The following are among the cases before the Supreme Court at Philadelphia on Thursday last, Chief Justice Woodward and Justices Thompson, Read and Agnew being present:

Dark, et al., vs. Johnston, et al.. Error to Common Pleas of Allegheny county. Judgment reversed. Opinion by Justice Strong.

Brown vs. Finney. Error to Common Pleas of Allegheny county. Judgment reversed and *venire de novo* awarded. Opinion by Justice Thompson.

Kersey Oil Company vs. Reno Oil Creek and Pithole Oil Creek Company. On motion of C. C. Mayor, attorney for plaintiff, Jesse Morrill, Esq., was appointed examiner to testimony on the part of plaintiff in Venango county or elsewhere.

Dead Child Found.—The Norristown *Herald and Free Press* says: Last Wednesday, while workmen were engaged digging in a ditch near Schall's lower mill, a body of a person, apparently seven or eight years of age, was found in a decomposed state. The only clue to its identity was some wool on its head, which would indicate that it was the body of the child of James Phillips, (colored) washed away during the memorable flood of July, 1865. The workmen being ignorant of the law, threw the remains into a grave and covered them up.

Man Cut in Two.—From the Harrisburg *Telegraph* we learn of the following shocking accident: Mr. Mark Haines, engineer at the Duncannon Nail Factory, was killed on Monday morning by being caught in the machinery. It appears that he was about fixing something at the machinery when he was caught in the belting and thrown upon the cog wheels—then in motion—which crushed and cut his body into two parts. He was highly respected in Duncannon, and was a member of the Lodge of Odd Fellows at that place.

Accident in Perry.—We learn from the *Perry County Advocate* that on Friday last, David Stumbaugh, Jr., of Spring township, while on the mow immediately above the threshing floor of his father's barn, in which was stored a grain drill, reaper, and other farming implements, fell through a hole in the mow to the floor beneath, striking his head upon the large wheel of the reaper, injuring himself, it is feared, fatally. From the time of the accident he had not uttered a word, having lost the power of speech.

Death of an Old Inhabitant.—Alex. Brown, of Jersey Shore, Lycoming county, died after a brief illness, on January 5th—the result of a bad cold. Mr. Brown was in the 92d year of his age, and probably the oldest person in that section of the State. He was in full possession of all his faculties up to the time of his death.

Burglarizing at Leisure.—The key of Mr. Swan's variety store, in Lewistown, Mifflin county, was stolen a few weeks ago, and since then some fellow got in and stole between fifteen and twenty dollars in money.

MY POLITICAL PLATFORM.

Kind friends and patrons all, I ask your close attention,
I have a stock of Boots on hand, thousands of different sizes,
Which I can well afford to sell at the very lowest prices.
A lot of Boots and Shoes, of French and German leather,
Which none would be afraid to wear, in coldest winter weather.
My Ladies' Boots are of the best, it really is surprising,
That I can sell so very cheap, while prices still are rising.
My stock is of the very best the trade did ever produce,
My Shoes are far the cheapest since the prices I did reduce.
Then seek your own advantage and come to me and buy,
And when my stock is all sold out I'll get a fresh supply.
Since money is so plenty now, and greenbacks in good credit,
Do come and buy some bran new Shoes, you never will regret it.
Cold winter now is at the door, when the old year has ended,
And if your shoes have sprung a leak, do come and get them mended.
Then call at the popular Shoe Palace Emporium, Nos. 45 and 48 Fifth street.

The case of William C. Thompson vs. W. Heinbleright *et al.*, was concluded on Saturday, the jury finding in favor of plaintiff the sum of $199,20, being treble the amount of damages claimed. The action was brought to recover the value of timber cut down on the premises of plaintiff, in East Deer township, and carried away, for use on the West Pennsylvania Railroad, an act of assembly allowing the jury to treble damages in such cases. Defendant's counsel moved for a new trial.

SCHOYER-KENNEDY LIBEL CASE—REASONS FOR A NEW TRIAL.

On Saturday, Marshall Swartzwelder, Esq., of counsel in the case of the Commonwealth vs. John B. Kennedy, indictment libel, filed reasons in support of the motion in arrest of judgment and for a new trial, as follows:

1st. That the indictment is fatally defective in this, that there is no averment in the introductory part thereof averring that Schoyer the prosecutor, was engaged in the management of the *Gazette* newspaper, to which the inuendo could refer and explain.

2d. That this is not a formal defect, amendable under the code, and the court erred in allowing the amendment.

3d. That the Court erred in excluding from the jury the evidence offered tending to rebut malice.

4th. That the Court erred in refusing to permit the truth to be given in evidence, although counsel for the Commonwealth assented to its introduction.

It is not probable that the motion will be argued before next week.

Action of the Board of Trade.

On Friday afternoon a special meeting of the Board of Trade was held at their rooms on Wood street, the President, George H. Thurston, Esq., in the chair, for the purpose of considering several important matters, and taking action thereon. Among other matters was the adoption of the cental measurement system, and favoring the improvement of Ontonagon river harbor, and the River Improvement Convention at St. Louis, and the propriety of obtaining the views of the different Boards of Trade to a modification of the income tax.

Upon the subject of modifying the Income Tax, the following resolution was laid before the Board, and was adopted unanimously after discussion.

WHEREAS, It is believed that an important modification of the tax upon incomes is due to a large class of persons of slender revenues, and particularly those living upon salaries and fixed incomes of small amounts—therefore,

Resolved, That the President of this Board be requested to correspond with the Boards of Trade and Chambers of Commerce of other cities—with a view to some general and co-operative movement, looking to such a modification of the tax upon incomes as may be thought just and equitable.

In regard to the Cental system of measurement, a resolution was adopted concurring in the action of the several Boards of Trade on that subject.

The call for a River Improvement Convention to be held at St. Louis on February 12th, met with the approbation of the Board, and delegates are to be appointed to represent that interest from this city.

Concerning the Ontonagon Harbor Improvement, the following resolutions were offered by Hon. Thomas M. Howe, and after discussion adopted.

Resolved, By the Board of Trade of the City of Pittsburgh that the memorial of the citizens of Ontonagon county, Michigan, to the Congress of the United States for aid in constructing a harbor at the mouth of the river by that name, is respectfully but earnestly commended to its favorable attention and consideration.

Resolved, That a copy of these proceedings be forwarded to our Senators and Representatives in Congress, with a request to have the subject brought to the attention of the proper Committees of both Houses.

The meeting then adjourned.

School of Design for Women.

This very excellent institution held its second annual examination on Friday last, the lady scholars showing decided and wonderful improvement in the all important branches taught by its faculty. The following gentlemen served upon the examining committees: On Practical Geometry and perspective, J. W. Kerr, Dr. Woods; Outline Drawing, C. Johns, Dr. Howard; Pencil and Landscape, A. Walt, J. Laughlin. Water Color Painting, George Hetzel, Dr. Woods; Light and Shade from the cast; Trevor McClurg, D. McCandless, W. Thaw. We have been favored with the list of successful competitors for the premiums, which we regret our space will not permit publishing. It will suffice here to say that all the scholars clearly demonstrated the great worth of this institution in promoting the fine arts in our city. It should be better patronized, and would be were it better understood by our citizens.

An Unvenerable Load.

A large crowd was collected yesterday afternoon, on St. Clair street in the front of Ruckheisen's Philadelphia Saloon, watching a dispute between the driver of a sleigh and the passengers whom he had in charge. The latter consisted of four elderly men, all save one being gray haired, and gray bearded, and all wearing drab colored broad brimmed hats. The four passengers were all apparently drunk, and were insisting that the amount they had paid the driver entitled them to a longer ride than he had given them, and they demanded that he should go further with them. This the driver utterly refused to do, affirming that he had already taken them to far for their money. Officers Dressler and Cupples were passing, and on finding how the matter stood, ordered the "driver to move on," whereupon he moved on with his with his wrathful load, to the livery stable whence he came.

The Vigilant Steamer.

The Vigilant Fire Company's new steamer, now in the course of construction at the Amoskeag Works, will be, when completed, one of the most perfect machines ever manufactured, and in point of ornamentation, will equal any similar apparatus extant. The lamp for decorating the air chamber alone cost two hundred dollars, and, it is said, will be a beautiful piece of workmanship. The latter part of February is the time set for the completion of the new machine.

Who Was It?—At an early hour on Saturday evening, as a lady named Mrs. Heilbrunner was passing along Fifth street, near Knox's fruit and flower store, she was met by some person dressed in a military overcoat, who struck her on the breast and knocked her down. He then left hurriedly and has not since been traced. Mrs. H. did not recognize him, and no clue to his identity has been established. The lady was not much injured. It is possible that the supposed assailant may have accidentally slipped in stepping aside for the lady, and in throwing out his hand to save himself, have inadvertently delivered the blow mentioned.

"G. A. R."—A meeting of the members of Post No. 4 of the Grand Army of the Republic was held on Saturday afternoon. The following officers were elected: Commandant—John M. Campbell. Assistant Commandant—A. H. Hersey. Adjutant—James H. Garrard. Quartermaster—Wm. R. Sturgeon. Chaplain—Thomas M. Gillespie. Surgeon—E. S. Umbstaetter. Officer of the Day—Geo. Noble. Officer of the Guard—Robt. M. Gillespie.

Aground.—The steamer Leonidas freighted for New Orleans, got aground in the Monongahela on Saturday afternoon, and was only gotten off after an infinite deal of trouble. The steamer Leni Leoti lies with her head far upon the wharf and the three wharf boats of the respective lines are all lying upon the wharf high and dry, as if they had entered permanently the land service.

New Books.

THE QUAKER SOLDIER; or, The British in Philadelphia. By Col. J. Richter Jones. Philadelphia: T. B. Peterson. Pittsburgh: Sold by H. Miner.

It is rarely that a historical fiction of such merit makes its appearance. The action of the tale commences with the entry of the British into Philadelphia, and closes with their departure; and we have in this interval a series of brilliant pictures of the times, such as no preceding novelist has surpassed. The events leading to the battle of Germantown, and the battle itself, are narrated with a fidelity which proves the author to be familiar with every foot of ground, as well as many authentic traditions never before in print. The book, indeed, is full of local color. The Pennsylvania Dutchman, for the first time in literature, is accurately and graphically skillfully. Nor is the Philadelphia Quaker has caught, ly delineated; for the nor of the sect, but not only the formal call it, in which gen- the style, if we oned Quakers talked. In uine, old-fashioned of the plot there is a little exaggesome [illegible]; but, on the whole, the novel is ge[illegible]tion; but, on the whole, the novel is one of real merit, and will be appreciated by readers precisely in proportion to their intelligence and culture.

THE WAY OF THE WORLD. A novel. By Wm. T. Adams. Boston: Lee & Shepherd. Pittsburgh: For sale by H. Miner.

Our author, known better as "Oliver Optic," is equally at home upon the land or upon the water; talks as familiarly the idiom of the deck as of the farm; will describe to us life on the prairie or in the city with equal facility, and never confuses identity in either. His dialogue is ever sprightly and sparkling, and runs on as free from "hifalutin" and stiltedness as people talk, without the effort that labors in many compositions of the kind; and in this simplicity, with the good sense of which it is the vehicle, consists Mr. Adams' strength, that makes all his books effective and popular.

THE GIRAFFE-HUNTERS. By Captain Mayne Reid. Boston: Ticknor & Fields. Pittsburgh: For sale by Henry Miner.

Captain Reid is so well known as an adventurous African explorer, and delineator of his strange experiences, that his books need no commendation from us. These hunting pictures have a wild, strange fascination in them, which will instruct as well as entertain.

THE OLD SERGEANT, and other poems. By Forcey the Willson. Boston: Ticknor & Fields. Pittsburgh: For sale by H. Minor.

Pittsburgh Vendetta.

On Saturday afternoon, between three and four o'clock, Chief Hague and some of his police were obliged to interfere to break up a fight that was raging between Lafayette Johnson and Edward Hearns on the street in front of the Crystal Palace saloon, kept by Manus McLaughlin on Smithfield street, between First and Second. The two belligerents were marched to the lock-up and lodged therein for a hearing. Johnson said that he never had any difficulty with Hearns, but that some months since Hearns had a fight with his (Johnson's) brother, and ever since that time has had "a pick" at Lafayette. On Saturday afternoon Johnson went into the Crystal Palace, where Hearns and another party were playing "Dutch Billiards." Hearns, as soon as he discovered Johnson, "went for him" for his brother's sake, attacking him with vigor and tearing his coat. This was too much, and Lafayette went in for his share of the fight. The proprietor of the saloon interfered and put the two outside the house to complete their battle. There they were captured as mentioned.

Trunk Found.

Some six weeks ago a trunk containing a quantity of clothing, &c., was stolen from a man named Gilmartin in this city. A coat which Gilmartin supposed to be his, was recently discovered to be in the boarding house, No. 79 Fourth street. Officers Cupples and Dressler went to the house after the coat, and in addition to it found the trunk lost six weeks ago. It appears that an inmate of the house had purchased the trunk for the sum of $.50 from Obed Rigby, one of the youths charged with stealing the GAZETTE files. The trunk was fully identified by the owner and removed. The coat in question was in the possession of Mr. Post, an actor. Mr. Post had purchased from Rigby a pawn ticket for the sum of one dollar. On presenting the ticket at L. De Roy's, on Smithfield street, and paying the necessary charges, he received the coat. The garment was not identified as belonging to Gilmartin, but there is good ground for supposing it stolen, and it is still held in the possession of the officers.

Officers of the Independence Hose Company.

On Thursday evening the Independence Hose Company elected the following officers: President, James McKee; Vice President, John Moreland; Secretary, John Boose; Treasurer, David McClelland; Captain, Nelson Woods; First Lieutenant, Geo. McKenna; Second, John Price; First Hose Director, John Hierst; Second, George Stewart; Third, John Handlon; Fourth, Thomas Bovard; Hose Enginer, Charles Kennedy; Assistant, Joseph Handlon; Axmen, R. Rowe, Jacob Mink, Wm. Gaeins, John Barnard; Trustees, James McKenna, Nelson Woods, John Moreland; Delegate to Firemens Association, James McKee.

A Hotel Muss.

On Saturday afternoon, at about three o'clock, the police were summoned in haste to quell a disturbance in progress at the Eagle Hotel on the corner of Ross and Second streets. Officers Wrigley, McMullen and Dressler repaired to the spot and arrested the chiefs of the muss, named respectively Cook and Robinson. It appears that the two men entered the hotel and demanded drink, which, as they were already drunk and disorderly, was refused them. They grew belligerent and pulled off their coats, and one, it is alleged, drew a long dirk knife to enforce the demands made. They were locked up and at the hearing yesterday morning, fined eah $5 and costs.

A Chicken Robbery.—James Sullivan, of Peebles township, fancied game chickens and for want of better accommodations, lodged a choice assortment of them in his garret. His wife objected so vigorously and practically that the chickens were removed to a coop in the back yard. Shortly afterwards they were again removed, this time surreptitiously, and it was some time before the despoiled owner ascertained who the thief was. At last he found out, or says he found out, that it was one Patrick Finn. He made information before Alderman Lynch to that effect, and a warrant was issued for the arrest of Finn.

What He Got by It.—At about eight o'clock on Saturday evening, Michael McDemich and his wife, residing at the Point, were indulging in a little bit of a family muss, when Daniel Dolan, a neighbor, interfered to restore peace. Mrs. Demich instantly seized a pot full of boiling coffee and poured the scalding contents upon the peace maker, scalding his right arm in the severest manner. The injured man went to the office of Dr. McDonald and had his wounds dressed, firmly resolving the while never again to interfere in family matters.

Officers of the German Insurance Company.—The election of officers for the German Insurance Company had not been completed at the time the annual elections of the other Companies were reported. Below is a list of the officers elected:

President—C. Hœveler. Vice President—Ed. de Barenne. Treasurers—C. Barchfeld, P. Habermann, H. Vœgele, H. E. White, Joseph Lang, E. Morganstern, John Vogel, George Seyboldt, A. Groetzinger, Chs. F. Schwarz.

Slight Fire.—Yesterday morning, shortly after four o'clock, the floor of the Third United Presbyterian Church, situated on Diamond street, between Grant and Ross streets, took fire from one of the heaters. An alarm was promptly sounded from box No. 26, and the flames were extinguished without any material damage being done. The fire department were on the ground, but their services were not needed.

Committed.—Obed Rigby and John Bayne, the graceless scamps who stole the files of the GAZETTE from this office recently, had a partial hearing before Mayor McCarthy on Saturday, and were committed to jail to await a further hearing on Wednesday next.

River Telegrams.

[*By Merchants' National Telegraph Com.*]

OIL CITY, January 20.—The weather is cold: thermometer sixteen degrees above zero; been snowing all day. River closed.

LOUISVILLE, January 19.—River rising with eight feet three inches in the canal, which is full of heavy ice. Six coal barges sunk on the falls, part of the fleet that broke loose from Cincinnati. A number of empty flats &c., went over the falls, and there is great fear of the ice. About three inches of snow have fallen since three p. m.

Boiler Explosion in Mississippi.

NEW ORLEANS, January 20.—An explosion occurred at Ballard Mill, in Chickasaw county, Mississippi, whereby the son of Mr. Ballard and a man named Sykes, and a negro were killed, and another person scalded, it is supposed fatally.

Steamship Sailed.

PORTLAND, ME., Jan. 20.—The steamship Belgian sailed at 3 A. M. for Liverpool via Newfoundland.

—When the town of New Ulm, Minn., was laid out, years ago, the proprietors made it one of the conditions that "no church should be built in the place." The year that the Indian war broke out, the people of that place made an effigy of the "Saviour of the world," and burn it. When the Indians descended on their "doom" city, the men that could dare to insult their God quailed to meet an Indian. The late "horror" that was committed there is what would be expected from a place so low in the annals of crime.

—Apropos of the resuscitated play bill announcing Mr. Nathaniel P. Banks' appearance as "Claude Melnotte" in Boston, nearly thirty years ago, an exchange tells of the bill of a previous performance in the same city, in which Mr. and Mrs. Banks are announced to dance a sailors' hornpipe.

—Evening Lectures to the prisoners are now given in the Massachusetts State Prison.

—For the restoring of the specie standard and getting rid of the evils of our depreciated fluctuating redundant paper money, three things are necessary. First, the excessive volume of the currency must be brought down to the limits required by the movements of legitimate business. Secondly, it must be endowed with just so much elasticity as will enable it to enlarge and contract with the greater or less demand. Thirdly, it must be connected with an adequate specie reserve, and should be convertible into coin on demand. The Philadelphia *Ledger*, commenting on the subject, says:

"Those who daily press an immediate resumption of specie payments seem to ignore the fact that nearly seven hundred dred millions of 7-30 Treasury notes are soon to mature, the holders of which have the option to ask for paper currency or gold-bearing bonds. If the paper currency becomes redeemable in gold before a settlement is made with these creditors, as they will if specie payments are resumed, of course the holders will all demand payment at maturity, instead of conversion. As the Treasury has not the means of paying even in paper, much less of redeeming that paper at par in gold, such a demand would create a serious embarrassment not only in Government finances, but also in mercantile circles. It is evident this temporary debt must be funded before there can be any steps toward resumption of specie payments, and those who clamor for the latter, without reference to the former, only manifest their ignorance or selfishness. There can be no immediate resumption, nor is the time so near that it would be wise to name a day for that desirable consummation, still it can do no harm to work steadily to that end, and when as many as possible of the impediments standing in the way are removed, why then, if the business of the country warrants it, announce the fact and maintain it."

—Of Government securities the New York *Evening Post* says: "We observe an active investment demand, which is chiefly for 7-30s. New bonds are also inquired for. There is also a sharp demand for old bonds and one German house bought on Tuesday more than a quarter of a million. The chief feature in the foreign demand is the increasing inquiry for small bonds, some considerable lots having just been taken up for Switzerland, which is a new market—just being opened. Our city merchants are depositing their surplus funds arising from their new year's sales and collections, so that the bankers, with whom the deposits are made, have now more money to lend."

—The amount of American securities held abroad is estimated at six hundred millions. Of this amount, three hundred and fifty millions are United States bonds, one hundred and fifty millions State and municipal bonds and one hundred millions railway bonds and shares. It is easy to foresee a return of the former in the midst of the political agitation growing out the impeachment and disposition of the President, and this contingency exerts a constant influence upon the premium, especially in periods of excitement. Had it not been for the export of these securities the drain of specie from our shores in payment of the balance of trade against us during the last three years would have been very heavy.

—The New York *Tribune* says the proposition to take from the National banks the power of issuing circulating money grows in favor the more it is examined. Saving, as it would, $18,000,000 in gold per annum, and releasing as it would practically the national debt by one-eighth part for the present, the scheme comes home to every tax-payer and every citizen. The change does not involve the violation of any obligation to the banks. The latter, to be sure, would under the amended law, be obliged to surrender this bonus of gold-interest upon bonds pledged as security for a currency practically irredeemable by them since its issue. But this would not cause any regret from the public, who would steadily keep in mind the fact that the $18,000,000 of bonus to the banks so saved relieves the people from an equal amount of taxation. The proposed change is a serious one to parties depending upon bank favors, and should cause traders upon borrowed money to be prudent.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, January 19, 1867.

The operations in produce during the past week were remarkably light, being restricted almost wholly to supplying the immediate wants of consumers, and as a matter of course, round lot operations have been of rare occurrence. The stringency in the money market has a tendency to put a quietus on anything like speculation, and consumers and dealers are restricting their purchases to the lowest point possible, while so far as values are concerned, excepting such articles as are affected by the fluctuations in gold, there has been no changes worthy of special notice.

GRAIN—Wheat is quiet but steady at $2,55 to $2,60 for No. 1 Spring, and $2,85 to $2,90 for prime Winter; sale of 60 sks common Winter at $2,70. There is a slight improvement in the demand for Barley, but prices are no better—sales of No. 1 Spring at 90. Oats dull but unchanged; 52 to 53, for small lots, in store. Ear Corn is dull and cannot fairly be quoted above 68 to 70, on track. Rye—no sales reported; may be quoted at $1,23 to $1,25 for prime Ohio and Penna.

FLOUR—The market is quiet and unchanged. We continue to quote at $12½ to $12¾ for good to choice Spring Wheat; $13,50 to $14,50 for Winter Wheat; and $16 to $17 for fancy brands. Sale of 20 bbls "Crown Mills," a fancy St. Louis brand, at $16. Rye Flour is quoted at $8, and Buckwheat Flour at $3,50 to $3,75.

PROVISIONS—Bacon is quoted at 12½ for Shoulders, and 17 for Sugar Cured Hams—demand light. Lard is firm, and prime kettle rendered may be quoted at 13c. Mess Pork—last sale at $20½. No movement in Bulk Meats. Dressed Hogs a little dull but unchanged; packers paying 7½—retailing at 7¾ to 8.

MILL FEED—Sale of 115 bags Shorts at $1,20, and 1 car Middlings at $1,80. Oil Meal quoted at $2,20 to $2,85, for small lots, in store.

BUTTER—Is dull and in good supply, indeed, the market is completely glutted, but prices are nominally unchanged. Prime Roll, in small packages, is quoted at 30 to 32.

EGGS—The demand is better, and as the receipts are falling off, prices are a shade higher, and we have sales of fresh packed reported at 32 to 33.

HAY—The market continues very dull with a supply considerably in excess of the demand; we quote at $20 to $22 for good to prime baled—sale of 1 car at $20.

APPLES—Quiet but steady with regular sales at $3,50 to $4 per bbl for fair to good—occasionally small lots of choice at $4,25 to $4,50

POTATOES—Continue dull but unchanged—small sales of Peach Blows at 90c per bushel.

SEEDS—Flaxseed is in demand at $2,50, and but little offering. No movement in Clover or Timothy Seeds.

DRIEDFRUIT—Dull but unchanged; small sales at 9 to 10 for Apples, and 16c to 20c for Peaches.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, January 19, 1867.

The transactions in Crude have been remarkably light this week, and while the market is dull and neglected, prices are nominally unchanged. We are cognizant of offers to sell for spring delivery, at 8½ to 9c, and offers to buy at 8, while on the spot, the only sale of any importance during the entire week was six hundred barrels, at nine cents. Smith's Ferry oil is selling on the spot, at 7½, packages returned, and 12⅛, packages included. Private telegrams from Oil City report that Crude has advanced to $2 per barrel, at the wells, and $2,60, at that point. We suppose the heavy sales of bonded oil here this week is the cause of the advance there, but we are of the opinion that the advance will not be maintained very long, as the recent "spurt" in refined was entirely speculative, as we are assured buyers for export, both in Philadelphia and New York, have withdrawn from the market—having no orders to fill.

REFINED—There was some inquiry for bonded oil to-day, all for future delivery, and all on speculation, but prices are no better. We can report sales of 500 bbls for March, at 25⅛, on board cars at works; 1000 for May delivery in Philadelphia, at 32; 500 same month at same price; 1000 for June, at 33; 3000 standard white—1000 for May at 33; 1000 for June at 34; and 1000 for July, at 35—total sales reported, six thousand barrels. Total sales reported during the week, *thirty-four thousand barrels*, the largest operations we have had reported in any one week this season. It should be borne in mind that nearly all of these sales are for future delivery, the demand being entirely speculative, so that the activity manifested, apparently, cannot be regarded as an index of a very strong or healthy market. Free oil is quiet and unchanged.

ARRIVALS—The following arrivals of oil were reported to-day:

J. K. Barbour	156	S. McMahon	46
H. Swaney	40	Baxter & Co.	55
Waring & King	48	Pacific Oil Co.	47

Total	490
Total Receipts for the week	963
Total Receipts last week	3716
Total Receipts since Jan. 1	5379

The Wholesale Trade.

NEW YORK, Jan. 19.—The wholesale trade has been very dull during the past week, owing to fears of a crisis in the money market, and the storm, but European advices of small stocks has caused confidence on the part of holders of grain, and a more active trade is looked for in the ensuing week. There are many orders for export of grain. Flour has been pressed on the market, particularly low grades, by weak holders whose margins are nearly gone. Prices declined 40 to 50c, but toward the close a portion of the decline was recovered. Wheat neglected, millers holding off, owing to the decline in flour; those compelled to sell submitted to a decline of 5@8c. Pork more active, closing strong. Dry goods extremely quiet and without any change in the prices.

Manufacture of Highwines—A "Leak" Somewhere.

There is a very large leak somewhere in the manufacture of highwines. Yesterday, parties offered to sell alcohol, manufactured in New York, and delivered here, at $3,25@3,50 per gallon. Now, when it is considered that the tax on alcohol is $3,76 per gallon, the cost of the barrel about six cents per gallon more, and the freight from New York here another six cents, it is but natural to suppose that the alcohol never paid any tax and that gigantic frauds upon the government are being perpetrated. It is the same way with highwines. Illicit distillers undersell honest manufacturers, and the consequence is, that the latter have been almost entirely driven from the field.

We understand that coppersmiths all over the country have, of late, manufactured an immense number of small "stills," capable of making from one to five barrels of whisky per day, which are secreted in out of the way places, and net their owners a handsome profit in a very quiet way.—*Chicago Journal.*

RIVER NEWS.

We had one of the most severe snow storms yesterday that has visited this part of the country for a number of years. There was a pretty stiff gale from the north most of the day, and in the afternoon so thickly did the snow flakes descend, that pedestrians found it exceedingly difficult to get along.

The Platte Valley, which sunk below Memphis Thursday night, was on old side-wheel steamer, about worn out, nine years old, built at St. Louis, and owned by Capts. Johnson and Blake, of St. Louis, worth $25,000, and partially insured in Cincinnati—$7,600 in the Franklin, and $2,500 in the Central. We hear that one or two other Cincinnati offices have risks on the Platte Valley. She struck the wreck of the rebel gunboat Jeff Thompson, tearing out her starboard side, and cased her to sink in forty feet of water. Sixty lives were lost by this disaster. She was plying between Memphis and Vicksburg under the control of the St. Louis and Memphis Packet Company.

The tow boat A. J. Baker arrived at Louisville the other day from New Orleans. Owing to the heavy ice she was compelled to leave her tow at Memphis. The Ajax (tow boat) has arrived and laid up at Cairo, and the America, en route from New Orleans to Pittsburgh, arrived at Cairo on Thursday. Among other items of freight, she has seventy-two hhds of sugar for Pittsburgh.

The following coal barges, together with the names of the owners, were swept away from Cincinnati by the ice on Wednesday:

	Loaded.	Empty.	Coal Floats.
Buchanan & Co.	7	6	1
Q. Adams & Co.	3	3	2
Wessell & Son	2	6	–
Foote & Donaldson	–	7	–
Wm. H. Brown	5	–	1
Cincinnati Fuel Co.	–	9	2
T. Dodsworth	3	5	1
Total	20	30	7

We glean the following particulars in regard to the "break-up and destruction of property at Cincinnati on Thursday from the *Commercial* of Friday:

About nine o'clock on Wednesday night, the ice out of the Kanawha, and considerable heavy shore ice which had been floated off by the rise, commenced floating past the city filling the river from shore to shore, sweeping off a number of loaded and empty coal barges, together with several steamers. It ran very heavy all night and yesterday. The damage to steamers is as follows: The Argyle was torn from her landing and swept down below the foot of Fifth street, where she sunk on the Kentucky shore. The loss will be light, as she had been recently purchased by Daniel Morton, and was being dismantled, all of her machinery having been removed some time since. The new Mail Line steamer America, in course of completion for the Louisville and Cincinnati United States Mail Line, also parted her lines and lodged on Picayune Bar, near Cullum's Ripple, where she lies easy, and apparently safe, with her bow headed up stream. The America, while floating past the foot of Ludlow street, drifted in against the steamer Pine Grove, carrying away all the stationary fenders, and cook-house, on the starboard guard, together with both fantails, and breaking one of her engines. The Pine Grove having extra lines did not leave the shore. Several steamers lying at the levee were struck by the huge masses of floating ice, breaking out a number of wheel arms, but none were badly damaged.

Owing to the heavy ice, none of the steamers announced to leave ventured out while the underwriters refused to take risks on cargoes. The Magnolia arrived from Maysville, and laid up in the mouth of Licking River, together with the Louisville packet Major Anderson. The latter has a full cargo on board for Louisville. The United States arrived from Louisville at 5 p. m., after hard battling with the ice. She met a number of coal barges floating in the ice. The United States reports meeting the steamers Darling, Silver Spray and Rowena below Warsaw, and seven coal barges and two model barges adrift above Warsaw. The two model barges belong to the towboat Liberty No. 2. The steamers were in good condition when met by the United States. The greatest destruction of property is in the loss of coal barges, twenty-three of which were loaded with coal, and forty-two empty, making a loss of one hundred and twenty-five thousand dollars.

The tow boat Whale, with some twelve or fifteen barges was carried off, and we learn that the Petrolia, which arrived from Pittsburgh, was pretty badly damaged by the heavy ice striking her.

The Arabian did not leave for St. Louis, as reported, but has laid up here, where she will remain until the ice runs out. The John H. Groesbeck and Kenton, we understand, have both laid up at Evansville. The Major Anderson has laid up in the mouth of Licking. The Messenger's shaft was shipped to Cairo last night by railroad. Capt. Jesse Dean goes with it, and expects to have the Messenger under way again in a few days for New Orleans.

From the Cincinnati *Commercial*, of Saturday, we extract the following items:

Capt. Harry, of the house of Harry Davidson & Co., arrived from Louisville yesterday. He reports the Darling lying some distance above the mouth of Beargrass, against the shore ice, which extends out some distance. The General Lytle and General Buell were laid up at the Mail Line wharf boat. The little towboat Wild Hoosier lies piled out on the levee, below the foot of Vine street, with her bow on the bank and stern under the water. The rapidly receding river will leave her high and dry to-day. The towboat Whale was bobbing up and down the river yesterday, towing back coal barges recently swept off by the ice. Alex. McDowell, falls pilot, aged forty-three years, died at Louisville on Thursday.

The following is a list of the different steamers at this point, laid up until the resumption of navigation: Above Broadway—Importer, Flying Eagle, Hull of the Superior, Pine Grove, St. Charles, R. C. Gray, Arabian and Belle Vernon. Between Main and Broadway—Starlight, Lizzie Hopkins, Potomac, Rebecca, Nightingale, Edinburg, Alice Dean, Emma No. 3, Lawrence, Armadillo, Leonora No. 2, Shamrock, Clifton, Champion, Mary Irwin, Anglo Saxon, Robert Burns, Minneola, Huntsville, Emerald, Westmoreland and Bostona. Between Walnut and Main—Mollie Norton. In the Licking River—Major Anderson and Magnolia, together with a large number of model barges. Of this list there are the following boats which are loaded and waiting for the resumption of navigation: Arabian, Emma No. 3, Lawrence, Armadillo, Mary Erwin, and Emerald. The America at last reports was still lying on the Kentucky side, near Picayune Bar, safe and sound.

All Diseases of the Lungs.

A case of five years' standing cured by

Dr. Keyser's Pectoral Syrup:

PITTSBURGH, January 11, 1859.

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.

JOHN DARIN,
Robinson Street, Allegheny.

PITTSBURGH, December 22, 1858.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eighteen months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup; which I did, and after I had taken one bottle, I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think that it should be known that this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE,
Witness R. H. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1858.

WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral Syrup, which I gave him, and it entirely cured him to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold and are inquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact all who use it once want it again.

Yours, respectfully,
J. S. WATTERSON & SONS.
January 30, 1860.

PITTSBURGH, November 18, 1858.

DR. KEYSER:—Although not an advocate to Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent. Yours, most respectfully,

EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1855.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir:—Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "it is no quack medicine," would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper. E. F. PRATT,
Late Messenger Common Council, Pittsburgh, Pa.

ANOTHER NEW CERTIFICATE—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.
(Signed), J. W. SIMONTON,
No. 346 Liberty street, Pittsburgh, Pa.
January 9th, 1860.

"STOP THAT COUGHING."—"How can I do it?" "Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold catching periods of the year. And we can from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral" in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh with one of the most contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1856.*
